

Gulshan Kumar

Software Engineer — Java Backend — Spring Boot — Kafka
gulshansharma014@gmail.com | +91-9958486094 | LinkedIn | GitHub | Portfolio | LeetCode

Software Engineer with 3+ years of experience building scalable backend applications using **Java 17**, **Spring Boot**, **Kafka**, **PostgreSQL**, **Couchbase**, **GraphQL** and **React.js**. Experienced in distributed systems, REST APIs, reactive programming, CI/CD, production debugging and designing maintainable enterprise software.

Experience

Infosys Ltd.

Digital Specialist Engineer

Noida, India

Oct 2022 – Present

- Designed and developed enterprise backend services using **Java 17**, **Spring Boot**, **REST APIs**, **GraphQL** and **Spring WebFlux** supporting production-scale travel and reservation workflows.
- Engineered modular comparison frameworks using **SOLID principles**, **Strategy Pattern**, reusable components and feature flags to simplify complex business rules and improve maintainability.
- Built **Kafka-based asynchronous workflows** integrating enterprise platforms through event-driven and REST architectures while improving reliability across distributed systems.
- Optimized backend persistence using **PostgreSQL**, **Couchbase**, **Hibernate**, **JPA** and reactive repositories while resolving production issues and improving application reliability.
- Developed reusable **React.js** components and internal engineering tools while improving code quality through **JUnit 5**, **Mockito**, **OpenSearch**, **Jenkins**, **Docker**, **Git** and peer code reviews.

Projects

AI Video Summarizer

React.js — Node.js — Express.js — Gemini AI — PDFKit — Jest

- Built a production-ready full-stack application that extracts YouTube transcripts and generates AI-powered summaries using **Gemini AI**.
- Designed a modular architecture with reusable React components, API abstraction, centralized error handling, scalable backend services and REST-based communication.
- Implemented PDF generation, automated testing using **Jest** and React Testing Library, and CI/CD using GitHub Actions while delivering a responsive user experience.

Technical Skills

- **Languages:** Java, JavaScript, SQL, C++
- **Backend:** Spring Boot, Spring WebFlux, REST APIs, GraphQL, Kafka, Hibernate, JPA, Microservices
- **Frontend:** React.js, Redux, Context API, Tailwind CSS, Bootstrap
- **Databases:** PostgreSQL, Couchbase, MongoDB, OpenSearch
- **Testing:** JUnit 5, Mockito, Jest, React Testing Library
- **DevOps & Tools:** Docker, Jenkins, Git, GitHub Actions, GitLab, IntelliJ IDEA, VS Code, Postman
- **Concepts:** Distributed Systems, Event-Driven Architecture, SOLID Principles, Design Patterns, CI/CD, Agile

Education

Dr. Akhilesh Das Gupta Institute of Technology & Management

B.Tech in Information Technology — CGPA: 8.77/10

Delhi, India

Aug 2018 – Jun 2022

Achievements

- Received the **Highest Contributor Award** during the Infosys Hackathon for delivering the highest number of production-ready features within the competition timeline.
- Solved **450+** **LeetCode** and **200+** additional **Data Structures & Algorithms** problems across coding platforms.
